INFORMATION * W: Width H: Height D: Depth * mm

This window hanging light box for daily use combines the power of LED illumination technology with the elegance of a thin profile. The frame on each model is 17.8mm thick, making it one of the slimmest marketing devices currently available. Small LED bulbs in the sides of the window hanging light box frame prevents against "hot" and "cold" spots appearing on the graphics. The diffusion pattern within the lightbox makes sure that the beams shed evenly over the images. Users can also adorn this LED signage to the wall. The thin window hanging light box showcases posters and graphics in either landscape or portrait orientation.
